# Gourmet Cube Ice

The Brilliance® Gourmet Cuber from Scotsman produces ice that's crystal clear, taste-free and odorless. The unique shape prevents clumping and allows the cubes to melt slower, which means drinks stay truer to their original flavor.

## Uniqueness:

Hard, crystal-clear ice with a distinctive form.

## Advantages:

Melts slower – won't dilute the drink as fast.

## Ideal Uses:

Perfect for premium mixed drinks, or for elevating any beverage occasion into something special.
